Stephen Ó Connor
Web / UI Developer

As a **Web UI Developer,** with over **12 years of experience** I have honed my skills across various technologies, languages, and frameworks. I am a self-motivated and fast learner, always eager to embrace new challenges. My passion for programming drives me to create detailed, high-quality solutions, constantly striving to improve development and communication processes. I am obsessed with detail and quality and thrive on finding simple and elegant solutions for every problem.

EXPERIENCE

Amdocs — *UI Developer*
Nov 2022 - Oct 2024 · Hybrid

➢ **Developed, modified, debugged and maintained software code** according to functional, non-functional and technical design specifications.

➢ **Followed Amdocs software engineering standards,** applied software development methodologies and release processes, to ensure code was maintainable, scalable, and supportable. Demonstrated software products to stakeholders.

➢ **Investigated issues by reviewing/debugging code,** provided fixes and workarounds, and review changes for operability to maintain existing software solutions.

➢ **Collaborated with a great team** to add value through participation in peer code reviews, provide comments and suggestions, and work with cross-functional teams to achieve goals.

➢ **Assume technical accountability** for specific work products within an application and provided technical support during solution design for new requirements.

➢ **Actively look for innovation,** continuous improvement, and efficiency in all assigned tasks.

➢ *Technologies Used: React, TypeScript, HTML5, CSS3, styled components, Recharts Node.js, NPM, Jest, Jenkins, AWS, Agile methodologies.*

New Horizon Refugee & Asylum Seeker — *Principal Software Architect*
MAY 2022 - NOV 2022

– **Designed, evolved, communicated, and enforced company software architecture** to align with business strategy and requirements.

– **Managed the design, development, and implementation of software solutions,** translating business needs into technical designs.

– **Guided the software development process** through high-level decision making.

– **Lead, coached and mentored software engineers, programmers, other team members,** working closely with the CPO to scale team capacity.

– **Created and maintained design and coding standard**s and selected engineering toolsets.

– **Served as a technical liaison** among project managers, developers, and stakeholders.

– **Created overall project plans** and tracked progress to ensure timely delivery.

– *Technologies Used: React, WP & WP scripts, PHP 8, AWS, MySQL, HTML5, SASS, Git GitHub, Cloudflare, GTM, Agile methodologies.*

SKILLS
